

Lean Management Systems

Accelerate the Improvement of Business Results

Executive Coach | Consultant in Management Systems Analysis and Design | Operations Improvement Expert

Didier Rabino

The Operational Excellence Specialist

I guide organizations along their path to function effectively as a system and to meet their biggest business goals:

- By assessing the work system, I will understand how value is added to your customers and identify the barriers to achieving excellence
- I will analyze your improvement system and identify opportunities for enhanced problem-solving capabilities
- I will help you define a management system that reliably supports both the work and the improvement systems

I have over 30 years of international experience within large manufacturing companies in all functional areas and healthcare systems of different sizes.

My operational leadership experience enables me to analyze and solve problems preventing the organization from achieving its next level of maturity and performance

EXPERTISE

- Operations leadership
- Shingo examiner, alumni, and facilitator
- Analysis, design, and integration of work, improvement, and management systems
- Real-time problem-solving to achieve the perfect safety goal of zero injuries
- Value stream analysis and transformation
- Dock-to-dock material flow application
- Coaching leaders and executives to standard work and strategy deployment
- Kaizen/RIE and 3P workshops to support product, process, and facility design

INDUSTRY EXPERIENCE

- Manufacturing
- Healthcare
- Medical Devices
- Insurance
- Finance
- Business Services

SUCCESS STORIES

- Improved large-scale manufacturing value streams achieving improvement in safety, quality, delivery, and cost by 20 to 90%
- Taught Lean thinking and tools to more than 1,500 people from more than 100 manufacturing companies in Minnesota
- Developed and implemented the Andersen Management System across the organization (Andersen Windows)
- Developed and implemented HealthEast's Lean Operating System and coached its adoption at Fairview Health System
- Successfully used 3P to design several healthcare facilities and manufacturing lines to support the continuous flow of value
- Recipient of the 27th IISE Honorary Member Award, succeeding E. Deming, Lee Iacocca, W. Von Braun, and Herbert C. Hoover

TARGET CLIENTS

- Mid-size organizations
- Are not satisfied with the status quo and strive for perfection
- Need to scale their operation or grow their business
- Struggle with meeting customers' commitments
- Need to grow problem-solving capability at all levels
- Want organizational goals cascaded to engage every employee
